MEMORANDUM FOR: Chairman, COMOR

25X1

SUBJECT:  Program

25X1

In considering the  Program at the 17 August meeting of the Executive Committee of the National Reconnaissance Organization, the Director of Central Intelligence agreed to consult the United States Intelligence Board and provide its recommendation to the Executive Committee on whether the program should be continued. The DCI requests that COMOR evaluate the  Program, with particular attention to the question of whether there is justification for its continuation, and submit a report to USIB. In view of the need for an early decision in this matter for budgetary reasons, COMOR's report should be submitted to USIB as soon as possible.
